Innovative UI/UX Designer with expertise in developing intuitive and visually engaging interfaces. Demonstrated proficiency in creating interaction models, user flows, and detailed user interface specifications. Skilled in generating wireframes and prototypes that enhance user experience and drive engagement. Adept at leveraging the latest design trends and technologies to deliver optimal results. Committed to applying UX principles and design best practices to transform user needs into compelling, effective solutions.

## EDUCATION

- **Uva Wellassa University of Sri Lanka**                                           *August 2021 - August 2025*
  *Bachelor of Industrial Information Technology*                                Badulla, Sri Lanka

## PROJECTS

- **Commercial Bank Digital User Interface**                                          *July 2024 - August 2024*
  *Tools : Figma*                                                                               [Bē]
  - Description: I redesigned the commercial bank app because I found the current banking app difficult to use, with a confusing layout that made simple tasks hard. To fix these problems, I created a new design that is easy to navigate, user-friendly, and looks clean and modern. My goal was to make banking simple and stress-free for everyone.

- **ThuriSpark (PVT) LTD Webpage**                                                    *June 2024 - June 2024*
  *Tools : Figma*                                                                               [Bē]
  - Description: My goal is to create easy-to-use designs and enjoyable experiences, focusing on UI/UX for design services and educational courses.

- **Web Application for Event Organization Platform - EventHub Team**       *July 2023 - July 2023*
